Sir

Sub: Adverse effects of advertisements on youth.

It is through this letter that I wanted to highlight the negative effects of glamorous advertisements on the young generation today.

Television is a very useful means of communication for both entertainment and acquiring knowledge. But the negative effects they have on the younger generation cannot be overlooked. Glued to the TV, computer or mobile, the glossy advertisements lure the young

minds. This thus makes them vulnerable as they cannot distinguish between the reality and fantasy. It influences their attitudes, ideas and behaviour which directly hooks them to the wrong path. They fall a prey for negative things like consumption of alcohol and tobacco. Many students even perform stunts which are dangerous for their lives as they might have been enacted by their favourite actors.

The imitation does not stop there. They even do their hair, dressing, mannerism, attitude or anything else on par with those in the advertisements which are away from reality. I hope the authorities concerned will ban the objectionable advertisements and play an active role in shielding the impressionable minds from falling a victim to the fantasy world.

Thank you.

Yours sincerely,

Sir

Sub: Faulty mobile phone-repair/replacement required.

This is to bring to your notice that the mobile phone LG Nexes 5 , which I had purchased from your showroom on the 16th of January 2019 with the bill number MMcp23/19, has started malfunctioning. Its performance during the first week was wonderful. The problems cropped up one after the other in the following three weeks. I contacted the customer care service. They are responding to my calls but without any proper solution

saying that the person responsible would be on the line soon. I wait for at least twenty minutes and switch it off as no one comes on line.

I had been disappointed with the quality and services rendered by your showroom. Since it is still in warranty period, I request you to look into the matter personally and get it repaired or give me a replacement at the earliest.

Thank you.

Yours sincerely,

(RAZIA)

Sir

It is through the columns of your esteemed newspaper that I would like to draw the attention of one and all to the deteriorating environment and the resultant increase in the occurrence of natural calamities.

Man, with his greed has brought upon not only on himself but also on all the living creatures the wrath of nature. Man thinks that he does not have any alternatives rather than disturbing the ecosystem. The fury of devastating Kerala or massive landslides in the Northern India, all are

the results of the disturbing ecosystem which are directly proportional to the damage that we human beings have caused and the returns that we get from Mother Nature, with thanks.

Be it the floods of catastrophic dimensions that ravaged Kerala recently or the landslides in the Northern India, both have brought into sharp focus the all-round ecological destruction caused by human interference. Trees have been uprooted and are replaced by a cemented jungle in the name of development.

Landslides and floods cause disturbance both socially and environmentally. Property damages, injuries, and death are inevitable then. The damages remain constant even after its occurrence, for example, water supplies, sewage disposal systems, forests, dams, and roadways can be affected for years. One of the quickest and easiest ways to prevent a landslide or floods is to vegetate the area, use CNG vehicles, practice organic farming and the race for hoarding nuclear weapons should be stopped altogether.

Natural disasters may never be prevented entirely, but the least we can do is avoid turning natural disasters into man-made ones through a lack of knowledge and negligence.

Thank you.

Sir/Madam

Sub: Inquiry about membership in your Swimming Club

I came across your advertisement in the Hindu newspaper yesterday. I am interested in learning to swim. It gave me immense pleasure to learn that you are open to offer membership. Hence, I would like to know the details about the membership of your club.

I am studying class ten and I wish to pursue swimming under a good coach. I would like to know about the fee, in particular if there are any concessions if it is paid for the whole year. What are the timings of the coaching? Is there any flexibility for any members if they opt for it? How much is the fee then? I live a little away from the city where there is no

conveyance facility in the mornings. Is there any transport facility provided if there are more than ten students from our locality?

Please furnish me with all the required details to the above mentioned address.

Thank you.

Yours faithfully,

(MONALISA)
